

SAFETY PROTECTION SHEET

Primer Oil 105 Chestnut Brown

Signal word:

Warning

Hazard statements:

H317 May cause an allergic skin reaction.

H412 Harmful to aquatic life with long lasting effects.

General

Article no.

12438

Use of the substance / preparation

Olja för behandling av trä

PC15 Products for treatment of non-metal surfaces

PROC1 Use in closed process, no likelihood of exposure

First aid procedures

General

IF exposed or concerned: Get medical advice/attention. If medical advice is needed, have product container or label at hand. General first aid, rest, warmth and fresh air. NOTE! Effects may be delayed. Keep affected person under observation.

Inhalation

Move the exposed person to fresh air at once. Rinse nose and mouth with water. If breathing is difficult, remove victim to fresh air and keep at rest in a position comfortable for breathing. Get medical attention if any discomfort continues.

Skin contact

Take off contaminated clothing and wash before reuse. Wash skin thoroughly with soap and water for several minutes. Get medical attention if any discomfort continues.

Eye contact

Immediately flush with plenty of water for up to 15 minutes. Remove any contact lenses and open eyelids widely. If irritation persists: Seek medical attention and bring along these instructions.

Ingestion

Immediately rinse mouth and drink plenty of water (200-300 ml). Do not give victim anything to drink if he is unconscious. DO NOT induce vomiting. Get medical attention immediately.

Information for health personnel

No recommendation given.

Protective equipment

Symbols

Eye protection

Use safety goggles or face shield in case of splash risk.

Hand protection

Use protective gloves.

For exposure of 1 to 4 hours use gloves made of: Rubber, neoprene or PVC.

For exposure of 4 to 8 hours use gloves made of: Polyvinyl alcohol (PVA).

Respiratory protection

Under normal conditions of use respiration protection should not be required. In case of inadequate ventilation or when the product is heated, use suitable respiratory equipment with gas filter (type A2).

Skin protection (except hands)

Wear suitable protective clothing as protection against splashing or contamination.

Fire fighting measures

Suitable extinguishing media

Water spray, foam, dry powder or carbon dioxide.

Fire and explosion hazards

In case of fire, toxic and corrosive gases may be formed.

Fire fighting procedures

Keep run-off water out of sewers and water sources. Dike for water control. Dike and collect extinguishing water. NOTE! Use air-supplied respirators to protect against gases/fumes. Beware, risk of formation of toxic and corrosive gases.

Personal protective equipment

Wear fire / flame resistant / retardant clothing. In case of inadequate ventilation wear respiratory protection.

Preventive Measures to contain emissions

General measures

Eliminate all ignition sources if safe to do so.

Stop leak if safe to do so.

Avoid release to the environment.

Personal protection measures

Ventilate well. Do not breathe dust / fume / gas / mist / vapours / spray. Avoid contact with skin and eyes. For personal protection, see section 8.

Environmental precautionary measures

Avoid discharge into drains, water courses or onto the ground.

Cleaning method

Dam and absorb spillages with sand, earth or other non-combustible material. Ensure that waste and contaminated materials are collected and removed from the work area as soon as possible in a suitably labelled container. Flush area clean with lots of water. Be aware of potential for surfaces to become slippery. For waste disposal, see section 13.
